Public Comment:

Consent Agenda

Items shown on the Consent Agenda will be taken up and voted on as a group in one of the first items of business of each Commission meeting. Items may be removed from the Consent Agenda for discussion on the Regular Agenda at the request of any Commissioner prior to the meeting.

Orders and Resolutions

CA-1 Res TL- 19007

654 Resolution approving issuance of charter-party carrier certificates pursuant to Section 5374(b) of the Public Utilities Code.

CA-2 Res ALJ-176-3091

655 Ratification of preliminary determinations of category for proceedings initiated by application. The preliminary determinations are pursuant to Article 2.5, Rules 4 and 6.1 of the Commission's Rules of Practice and Procedure.

http://www.cpuc.ca.gov/Cyberdocs/AgendaDoc.asp?DOC_ID=124236

CA-3 I99-10-024 - Investigation of USP&C to determine whether it has violated Public Utilities Code Section 2889.9 by failing to provide Commission staff with requested information and whether the Commission should order California telephone companies to cease providing billing and collection services to USP&C.

**CA-5
710 A99-10-027 - Arrowhead Manor Water Company, Inc. (Arrowhead).**

Application for a general rate increase. I00-03-016 - Related matters. The Commission finds that Arrowhead has been unable or unwilling to adequately serve its ratepayers, and has been unresponsive to the rules and orders of the Commission. The Commission's General Counsel is directed to petition the Superior Court of San Bernardino County to appoint a receiver for Arrowhead's water system in accordance with Public Utilities Code Section 855. Arrowhead is authorized a general rate increase of \$47,815 (16.8%), and a Safe Drinking Water Bond Act (SDWBA) loan surcharge is reinstated.

Arrowhead has improperly diverted SDWBA surcharge funds, but also has an uncollected balance in its purchased water balancing account; the two amounts are applied to offset and discharge one another. All penalties imposed by the Department of Water Resources for failure to make timely SDWBA loan payments are not recoverable from ratepayers. These proceedings are closed.

**CA-6
726 C02-01-039 - Gerald W. Utterback (Complainant) vs. Pacific Bell Telephone Company (Pacific).**

Complainant objects to a change in his telephone number from the Vacaville Exchange to the Dixon Exchange and asks that the Commission consider moving the Local Access and Transport Area boundary between the two exchanges. Pacific moves to dismiss on grounds that the Commission has decided the same issues in a case brought by two of complainant's neighbors (D01-12-031).

Complainant has declined an invitation to respond to the motion to dismiss. This decision finds that the Commission has no choice but to dismiss. The complaint is barred by Pub. Util. Code § 1709 (collateral actions or proceedings) and it fails to state a cause of action. This proceeding is closed.

818 **C99-04-046 - Pacific Bell (Pacific) vs. FirstWorld Communications, Inc., FirstWorld SoCal (FWSC), FirstWorld Orange Coast, FirstWorld SGV.**
In this complaint proceeding, Pacific alleged that, by virtue to its letter of agreement (LOA) with the owners, FWSC was the exclusive provider of service at The Block at Orange (Block), a shopping mall. Pacific also alleged that FWSC was the beneficiary of better terms of access to Block than Pacific was offered, in violation of D98-10-058 and D92-01-023. Pacific asked that FWSC be ordered to renegotiate the LOA so that FWSC would not have the ability to exclude Pacific from serving customers at Block. By D02-05-045, the Commission revoked FWSC's certificate of public convenience and necessity. The LOA no longer exists, and FWSC no longer provides service to Block. Therefore, since the causes of action no longer exist, the proceeding is dismissed. This proceeding is closed.

169** **A99-08-021 - Pacific Fiber Link, L.L.C.**
For modification of its certificate of public convenience and necessity to review proponent's environmental assessment for compliance with the California Environmental Quality Act. In this decision, the Commission is asked to decide whether penalties should apply to telecommunications carrier that began trenching and installing a fiber optic project in 1998 before it received the formal approval of this Commission under the California Environmental Quality Act (CEQA), Pub. Resources Code Sections 21000-21176. The utility in July 1999 was ordered by this Commission to stop work until it obtained formal CEQA approval six months later. Because the Commission in 1998 had no procedure in place for conducting a CEQA review for the type of utility involved, and because the utility was led to believe by Commission staff that an administrative CEQA approval was forthcoming, and because the utility itself retained environmental experts to monitor and direct its work, we conclude that, in the facts and circumstances of this case, no further sanctions are warranted. The staff appeal of the Presiding Officer's decision is denied. This proceeding is closed. (Agenda 3071, Item 5, 9/20/01).

This decision adopts permanent Unbundled Network Element rates for the High Frequency Portion of the Loop (HFPL) for both Pacific Bell Telephone Company (Pacific) and Verizon California Inc. (Verizon). The decision finds that establishing a separate rate for the HFPL allows Pacific and Verizon to over-recover their loop costs, since they currently recover the full cost of the loop through rates for the unbundled loop. Pacific and Verizon are required to return HFPL revenues to ratepayers through a surcredit on residential and business basic exchange customers bills.

For verification, consolidation and approval of costs and revenues in the Transition Revenue Account. In D99-06-058 the Commission ordered an audit of the Power Exchange energy credits (PX credits) of Southern California Edison Company, PG&E, and San Diego Gas & Electric Company. An audit was deemed necessary to insure that the PX credit on a direct access customer's bill was accurate. No termination date was set, but we provided for its eventual termination, should circumstances change. This decision grants the three utilities' petition to terminate the audit at the end of 2000. The PX credit ended when the PX suspended operations in January 2001. There is no purpose in continuing the audit. This proceeding is closed.

This decision certifies the Environmental Impact Report (EIR) for the proposed Wild Goose gas storage expansion project, amends Wild Goose's certificate of public convenience and necessity to authorize construction and operation of the project, and authorizes market-based rates for expansion storage services. These approvals are conditioned upon the mitigations in the EIR and upon application of the Commission's 1997 Affiliates Transactions Rules to Wild Goose and compliance with other enumerated reporting requirements, to permit the Commission to monitor market power and other developments in the evolving marketplace. Decision concludes that the Gas Storage Rules require that "as-available" transportation capacity should be allocated among all customers, on a pro rata basis, if capacity constraints should prevent full service to all storage and transportation customers but that there is no need at this time to open a Phase III of this proceeding to further examine the need for expansion of PG&E's "backbone" transmission capacity or the cost allocation of such an expansion.

6 R02-06-041 - Order instituting rulemaking to require California Natural Gas and Electric
841 Utilities to preserve interstate pipeline capacity to California.

Decision in Phase I sets forth two rules to ensure that California retains sufficient interstate pipeline capacity to meet the needs of its natural gas and electric consumers. The first rule requires California's natural gas and largest electric utilities to sign-up for turned-back capacity at El Paso delivery points by July 31, 2002, and the second rule pre-approves and finds just and reasonable the utilities subscription to the turned-back capacity. Pursuant to Rule 77.7(f)(9), the Commission determines that public necessity requires waiver of the review and comment period because the turned-back capacity may be permanently lost by July 31, 2002, and not available for subscription by the California utilities.
